BOYS ROLL ROCKS OVER HILL; AUTOISTS HAVE NARROW ESCAPE

More Juvenile Pranks Reported From Hill District, and Police Capture Some

LARGE JAGGED ROCKS USED

Dangerous Missiles Bound Over Top Of Machine and One Hit a Horse—More Flower Beds Damaged in the Hill District.

Narrow escapes for automobilists and people in at least one buggy are reported along Lincoln avenue extension from the pranks of boys rolling large rocks over the hill there, and some of the youngsters believed guilty have been apprehended by the police. They will report to the police station tomorrow, in company with their parents, for whatever may be their sentence.

The police have two rocks that were used. One of them is a jagged rock about five or six inches thick, 12 by approximately 12 by 15 inches in size. Another is almost as large, but not as jagged. It is reported that the larger rock bounded over an automobile, barely clearing the top. It struck the fence and tore away a part of a board. The other rock is said to have struck a horse's hoof, though the police have not learned the name of the owner of the horse. The rocks were started on the hill top by boys and they have been captured by the police.

Juvenile degradations are said to be continuing on the hill in the vicinity of Ninth and Tenth streets, as well as in the vicinity of Seventh and Eighth streets. Flower beds have been destroyed at various points and gardens damaged.

DECURES-WRIGHT WEDDING

SATURDAY AT PITTSBURG
IS PRETTY HOME EVENT

The wedding of Miss Ruth Wright, daughter of C. A. Wright of Charleroi to Russell Decures of Pittsburgh occurred Saturday at the home of the bride's mother in Pittsburgh, the affair being a pretty home event. Witnessed by close relatives, the ceremony took place in a prettily arranged parlor shortly after 6 o'clock, the ring ceremony being used. After the congratulations a wedding dinner was served. At present the couple will not take a wedding journey, but will go to housekeeping in Pittsburgh. The bride is well known in Charleroi where she has visited frequently. Her husband is a civil engineer. Attending the wedding from Charleroi were Mr. and Mrs. J. L. Reeves, Mr. and Mrs. B. D. Blaker and daughter Dessie and Jay Reeves.

CHARLEROI HIGH SCHOOL GES FIRST PLACE IN FIELD MEET

Minus Some of Best Men Local Team Makes Good Mark at Washington—Carson Gets Pole Vault.

Minus some of the best athletes of the team the Charleroi high school field and track team managed to take fifth place in the interscholastic field meet conducted under Washington and Jefferson's auspices Saturday afternoon at Washington.

Pittsburg Peabody high school finished first. Carson, the Charleroi captain captured one first place, that of the pole vault with a record of 16 feet 6 inches. Stahlman ran third in the 440 yard dash. Lowstuter third in the half mile run and Carson tied for fourth place with Alleman of Greensburg high in the running high jump. The Charleroi relay team consisting of Stahlman, Booth, Carson and Lowstuter took fourth place in the one-mile relay.

PAIGE IS ALSO INTERESTED

Paul B. Wreath who was concerned in the blow-up of the Western Pennsylvania league a year ago, and gained more or less notoriety by getting away from Charleroi without paying bills and by leaving his players stranded, is reported to be up to his old tricks again. This time Wreath is located in Newark, Ohio, managing the Newark team in the recently organized Buckeye league. The league, with A. W. Lawson as president is a six-team league including Akron, Canton, Lima, Marion, Findley and Newark. Wreath has been signing men for his team, and has selected Irve Wratton, a former American Association player to captain the team. Fred Paige, another manager remembered by Western Pennsylvanians is located at Canton.

SUFFRAGE CONFERENCE STIRS COUNTY WOMEN

Big Demonstration Held—Plans Being Formulated for Re-Organization Meeting of Suffrage Advocates Here Next Monday

An open air rally at Washington Saturday evening brought to a close what has been a remarkable demonstration for woman suffrage that lasted for two days. As Assemblyman H. R. Myers presided at the rally the right of vote for women, and among the speakers was W. M. McNair of Pittsburg. Delegates were present from all over the country. Charleroi was represented at the suffrage conference by Mrs. Herman Tweed.

INTERESTING BOUTS IN SHOW AT THE RINK

Fritz Eisner and Young Sharkey Fight to Draw—Wimler Quits in Fourth Round in His Battle With Eddie Hazel of Monongahela.

At the Charleroi Boxing show Saturday night Fritz Eisner, of Donora, and Young Sharkey of Pittsburgh battled for six rounds to a draw in the main bout. Ed Nevil of Donora, knocked out Louis Chambers in the first round in their fight. Chalky Wimler of Fairhaven quit in the fourth round in his bout with Eddie Hazel of Monongahela. Eddie Palus, of Charleroi, fought to draw with Jimmie McGinny of Charleroi in the opening bout. A fair sized crowd witnessed and enjoyed the show.

The club next Saturday night will put on another show which promises to eclipse anything shown in Charleroi this season. Kid Levo of New Kensington will meet Fritz Elsner, of Donora in the main bout. Levo is the boy that made such a hit earlier in the season in Charleroi when he fought Eddie Wimler here. Joe Frascatore, of Donora will meet Johnny Todd, of the same place in the semi final. Both boys have boxed before in Charleroi, each gaining in different bouts a victory by knocking out his opponent in the second round. Hence great rivalry exists and interesting developments are promised.

Mike Kopis of Monessen will meet Young Charles of Ellsworth in the second attraction. Red Bennett of Brownsville will open the show with Young Jones of Monessen.

SETTLED! AND SETTLED! RIGHT

Among the many newspapers in the state to comment upon the injustice of the full crew law and to advance the opinion that the best thing to do is to repeal it is the Philadelphia North American, which says the following editorially:

One of the leading financial news services sent out on its ticker on Wednesday this interesting statement:

The general feeling among business men and financial interests is that the legislature of Pennsylvania has acted in the full crew matter in a way which demonstrates an important change in the political attitude toward corporations.

Last night by a vote of 23 to 19, the senate passed the bill previously passed by the house by a vote of 133 to 58, repealing the full crew law and empowering the public service commission to see that trains are properly manned. It now remains only for Governor Brumbaugh to sign the bill, which there is every reason to expect he will do promptly.

The importance of this action is large. It is the result of a new kind of corporation campaign, one made in the open and as a direct appeal to the judgment of the people.

Success, of course, goes far to justify and popularize an innovation. Nevertheless, this utterance is powerfully suggestive. It represents the view of those who have persistently condemned and fought the idea that public opinion should be consulted upon such matters, and to whom the use of the referendum—such as was correctly employed here—was a dangerous invasion of constitutional rights and a submission to the "passions of the mob."

They discern "an important change in the political attitude toward corporations," but only dimly perceive that the real change was in the attitude of the corporations themselves.

In the first place, their cause was just; and in the second place, they promoted it, not by making secret arrangements with political bosses and lobbying among legislators, but by a direct appeal to the judgment of the people.

When they put themselves on record as conceding that the public has paramount rights in such a controversy between public service enterprises and their employees, and favoring complete state control of the manning of trains, they took a position that was absolutely impregnable. Public opinion, thoroughly informed, was enlisted on their side, and its decision was promptly reflected in the action of the legislature.

Not the least important effect of the change will be to teach the corporation and financial interests, first that the old system of trying to entrap and antagonize public opinion was a policy of blundering, and second that the people, far from being advocates of radicalism, are essentially conservative as well as just.

Governor Brumbaugh is fortunate in having this issue brought before him in a shape that silences controversy. The full crew act was uneconomic and unjust; a straight repeal, with a return to the old conditions, would not be tolerable, but a repeal which empowers the public service commission to frame rules for the manning of trains is a measure which assures justice to the railroads and the trainmen alike, together with a safeguarding of the interests of the public.

PICKED UP IN PASSING

Little Elsie, aged five, was quietly playing on the porch one afternoon, while her father and one of his friends were enjoying a smoke and having a chat on political matters. They paid no attention to the little girl's presence and Elsie seemed wholly absorbed in her dolls.

That evening Elsie appeared to be unusually silent and thoughtful. When bedtime came and she knelt down to say her prayers there came the usual petitions and then with a slight pause she resumed in a very earnest manner:

"And now, God, please take good care of Yourself, for if anything should happen to You, we would only have Mr. Wilson—and he hasn't come up to father's expectations."

In the June Woman's Home Companion appears an article entitled, "The Man Who Wanted to Die." It is the story of a young man, twenty-four years of age who suffered from such physical and nervous depression that he could not accomplish anything. He was unable to find out what ailed him until he fell into the hands of a wonderful physician who discovered that he was suffering from auto-intoxication. The doctor put him on a diet and arranged his exercise and rules of living with the result that in time he got into good condition. On the subject of making important decisions at night the doctor suggested that he adopt the following simple rule:

"Never think about anything very important after six o'clock; and never make a decision at night."

"You are a different man in the morning from what you are at night. Every man is. You leap with a bound in the morning over difficulties that at night are unsurmountable."

"You'll find your outlook on life ever so much brighter if you make all your important decisions before noon."

UNSIGHTLY SIGNS

The state highway department advances a few opinions along the lines of improvement of the county highways by the removal of unsightly signs. The department says:

Many citizens are not aware that there are laws in Pennsylvania which prohibit the erection of unsightly signs, posters and other forms of advertising along the public roads on state highways. The state highway department has issued orders that all of these advertisements be removed.

Why not go a step further and on the "State-wide Good Roads Day," Wednesday, May 26, cause these posters of a past age to be torn down on the county roads? They have no business there and few people like to see them. The proper place to advertise is in the newspapers. There is no reason why the beauties of nature should be distorted in this way. Let every county organization, which is working to improve the highways on the "State-wide Good Roads Day," aim to beautify these roads as well as to put them in possible condition.

The general feeling among business men and financial interests is that the legislature of Pennsylvania has acted in the full crew matter in a way which demonstrates an important change in the political attitude toward corporations.

Last night by a vote of 23 to 19, the senate passed the bill previously passed by the house by a vote of 133 to 58, repealing the full crew law and empowering the public service commission to see that trains are properly manned. Cleveland, Ohio.—"My left side pained me so for several years that I expected to have to undergo an operation, but the first bottle I took of Lydia E. Pinkham's Vegetable Compound relieved me of the pains in my side and I continued its use until I became regular and free from pains. I had visited several doctors if there was anything I could take to help me and they said there was nothing that they knew of. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. Griffith, 1568 Constance St., Cleveland, Ohio.

Hanover, Pa.—"I suffered from female trouble and the pains were so bad at times that I could not sit down. The doctor advised a severe operation but my husband got me Lydia E. NO GERMS ON FIRING LINE

At Least Soldiers, Hourly Exposed to Death, Have One Advantage Over Civilians.

Trenches are healthier than barracks or camps for soldiers, so far as infectious diseases are concerned. Despite the hardships, cold, exposure, irregular meals, strain of nerves, and other wholly unhygienic conditions infectious diseases are usually at a minimum, on the firing line, so says Col. Valery Harvard of the United States medical corps. Dr. H. W. Hill of the Minnesota Public Health association explains this seeming paradox. In the barracks and camps the soldiers have wide intercourse with each other, and with civilians, thus picking up whatever infectious diseases are going about. Despite regular life, good meals, discipline and sanitation, the infectious diseases attack them. But in the trenches they are comparatively isolated, and since infected soldiers are not allowed there, those on the firing line have little chance to become infected at all. Such injuries as cold, starvation, strain can produce, of course, suffered, but infectious diseases are not included in this list. Parallel cases in civil life are not uncommon, and everyone knows of families who live like pigs, yet are never sick, while other families living under apparently the best conditions are more or less constantly infected with one epidemic disease after another. Careful investigation always shows that the former escape, because they do not happen to be exposed to infection.

MUST GUARD AGAINST STRAIN

Too Much Care of Health Cannot Be Taken by the Student Who Has to Work.

After making a study of the 48 students comprising the graduating class of the Bennett Medical college, Chicago, many of whom were working their way through, Dr. William F. Waugh, emeritus dean of the college, writes to the Medical Record that "the showing is not a good one for the workers, more than half complaining of the strain."

Doctor Waugh goes on to say: "The man who attempts to earn his living while attending the modern medical school should lay down his campaign as carefully as the modern general does and calculate his own powers, the means of keeping his body in the best condition and the extent of his own working capacities without undue strain. In a word, he must be a qualified sanitarian and successfully apply the laws of sanitary science to his own case."

A Discovery in Steel.

A Sheffield firm has introduced "Tirth's stainless" steel, which it claims is nonrusting, stainable and untemperable. This steel is especially adapted for table cutlery, as the original polish is maintained after use, even when brought in contact with the most acid foods, and it only requires ordinary washing to cleanse. It is claimed that it retains a keen edge much like that of the best double shear steel, and, as the properties claimed are inherent in the steel and are not due to any treatment, knives can readily be sharpened on a "steel" or by using the ordinary cleaning machine or knifeboard. It is expected it will prove a great boon, especially to large users of cutlery, such as hotels, steamships, restaurants. The price of this steel is about twenty-six cents per pound for ordinary sizes, which is about double the price of the usual steel for the same purpose. It also costs more to work up, so that the initial cost of articles made from this new discovery, it is estimated, will be about double the present cost, but it is considered that the saving of labor to the customer will more than cover the total cost of the cutlery in the first twelve months. —Consular Report.

Novelty in Motor Vehicles.

A novel motor-driven racer is the invention of a St. Louis genius, who has given the name of the "unicycle" to the great heap. Though a couple of small wheels, or rollers, are attached to the side of the queer craft, they merely serve to steady it when it is still, and are raised when the device is in motion. The motive power is a gas engine of the rotary type, with three cylinders, and this drives a propeller, five feet in length, at such speed that the wheel travels at a better rate than a mile a minute—7½ miles an hour, to be exact. The frame which carries the engine, propeller, driver, and fuel supply is very ingeniously constructed with a set of rollers that revolve against the inner side of the big wheel. In this manner the frame remains upright while the wheel revolves. The latter is of aluminum and has a diameter of 81 inches. Its circumference is protected by a solid rubber tire.

Important Discoveries Near.

Sir William Crookes announces at the recent anniversary meeting of the Royal society, of which he is president, that "we are on the brink of striking developments in our knowledge of the structure of the elusive atom." Provisionally, this has been its definition: A nuclear positive charge of electricity—exceedingly small compared with the sphere of action of the atom, and consisting of a number of unit charges—surrounded by an external shell in which a number of separate negative electrons are distributed.

A DEFINITION

Equal suffrage: "An improvement based upon justice, counseled by wisdom and justified by experience."

A Difficult Feat

TO HELP MEN ON GOOD ROADS DAY

Women Suffragists Will Supply Lunches to All Volunteer Workers

BELIEVE IN BETTERMENTS

And Will Prove It With Lunch Baskets When the Noon Whistle Blows

Harrisburg, May 17.—Pennsylvania's women suffragists will do their part to assure the State-wide success of "Good Roads Day" on May 26th. They will provide refreshment to all the hungry and blistered male citizens who will shovel and pick that day in the interests of better public roads. In every township where the masculine population turns out for "road duty," a band of the local suffragists will be on hand with baskets of sandwiches and buckets of cooling draughts. And whether "pro" or "anti" in his beliefs on "votes for women," each individual worker will find a smiling suffragist ready to cater to the inner man when the noon whistle blows.

The story of the suffragists' desire to help in the improvement of the public highways is best told, perhaps in the letter which has just been sent to their County and City Chairmen by Miss Hannah J. Patterson, State Chairman of the Pennsylvania Woman Suffrage Party. In this letter Miss Patterson says:

"The Governor has fixed May 26th as a State wide Good Roads Day, and has called upon men, women and children to help. As all suffragists are deeply interested in the development of Pennsylvania, this opportunity to co-operate in the improvement of the State will appeal to all our women."

The State Highways Department suggests that the best way for the women to help is in providing lunches for the workers along the highway.

Will you please appoint a committee to confer with the township roads supervisors as to how to best co-operate in your immediate location?

"The State Highways Department further says: You needn't cook a great big dinner; you needn't make a market basket full of sandwiches. You needn't brew a dozen gallons of tea or coffee. But you can furnish a ham, several loaves of bread, buckets of cool spring water with dippers in them, and you and the children can carry this to the nearest point beneath the shade trees along the road at the noon hour and call the workers from their toil to partake of refreshments."

As the Pennsylvania Woman Suffrage Association has active local organizations in every county in the State and as the members of these are intensely interested in all propositions that tend to bring about civic, county or State improvements,

it is assured that there will be a big response on the part of the women to the call for their co-operation on Good Roads Day.

Judging from the early responses already received at State Headquarters, none of the men who help repair the public roads that day need worry about where their luncheon is coming from.
